To Parents and Guardians. The Female School at Wake Forest College will hereafter be conducted in the name of the subscriber. He would parficularly invite the attention of the patrons of Wake Forest College to the numerous advantages of having sons and daughters educated at the same place and in a consideable degree together. To such as may wish their daughters to take a thorough regular course of instruction, he promises every effort to give them an education that shall resemble in kind, and approximate in quality, to that received by the students of the College; indeed he thinks that one great advantage of his location is its proximity to the College, for a portion of its light and spirit must be reflected upon the Female School; besides no small advantage will accrue

and other public exercises of the Institution. He is aware that many have objected to the Female School at this place, that the young ladies would be placed in a situation to see too much society, but he is now satisfied that among the candid the impression exists that they have no more than is desirable-certainly not more than they would have at our village Boarding Terms as heretofore published, and made known

The following certificate is from the Rev. E. L. Fra

er, of Kershaw District, S. C. I have used in my family Dr. Hull's Fever and Ague Pills, and also Dr. Spencer's Vegetable Pills, for the last two years, and have no hesitation in pronouncing them to be the most excellent family medicines; and as an act of justice to the worthy proprietors of those invaluable pills, I will state for the information and satisfaction of all concerned, that my wife, prior to our marriage, had been more or less the subject of chills and fever, for about eighteen months, having tried various remedies without success, and was very much reduced in flesh. A few days after our marriage, she commenced with Spencer's Pilis, and in a day or two afterwards with Hull's Pills; she used about half a box of each the result was a radical cure; she regained her health and strength very rapidly, and has had no return of chills and fever since. I believe these medicines to be harm-
